## Review Session Includes:

- Review of the 7 ASTM standards: (ASTM C1064, C172, C143, C138, C231, C173, C31).
- Practice Quizzes
- Hands-on portion to familiarize with operation of performance testing equipment.
- Question & answer discussion
- **FREE** (included in registration) access to online exam prep. platform through [Concrete Career Academy](#)

The Review is not required in order to register for the ACI Field Tech Gr.1 exam however, ACI does recommend attendance to a Review session. This classroom review is intended to supplement student's self-study as part of the ACI Field Testing Technician exam preparation. This exam preparation class is intended to help those who are new to the information, equipment and procedures of testing concrete.
